TimberFest 2026

Guild members will gather in Gilmanton, New Hampshire, this summer for TimberFest 2026. We invite you to be a part of this special event celebrating our community and connection to one another.

This year, we are excited to offer a ***special collaboration between the Timber Frame Engineering Council (TFEC) and the Traditional Timberframe Research & Advisory Group (TTRAG)***: presentations by these two councils will overlap and connect the engineering of timber framing with the work of documenting, assessing, protecting, and restoring historic structures. Traditional classroom-style seminars will be intertwined with field experiences.

TimberFest attendees also have the option to ***participate in a women-led build of a timber framed structure*** to be donated to our hosts at Griswold Scout Reservation.

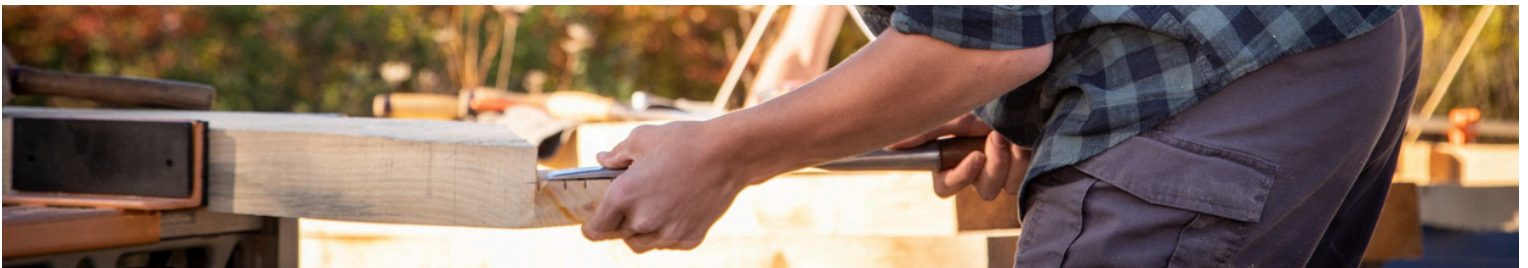

Our sponsors are recognized across our social media, on our website, and in event outreach and materials.

Donate: hit the QR code or visit <https://forms.office.com/r/Xm8MBV6a9q>
