

TTRAG & APT-DVC Slideshow 2024

The attendee slideshow is always a favorite event at our conferences. Through these images, we are inspired, instructed, and sometimes amused. We meet new people and are reacquainted with friends. Above all, we think about the work that we do as a community. Please consider sharing your work.

General Guidelines

1. Presenters may show up to 10 images of recent timber framing work.
2. No commercial logos are permitted.
3. Images must be of work in which you have actively or directly participated. The exception to this rule is for images of historic joinery (100 years or older) for purposes of documentation and subsequent submission to the TTRAG archive.
4. You must be present to talk about your images.

Preparation

1. Images may be of one project or of several but must involve timber framing.
2. Images should be numbered using two-digit file names to preserve your intended image order: do this "01.jpg" not this "1.jpg"
3. No more than 10 images will be accepted per attendee. Do not create slides with multiple images. Additional images will be omitted from the show.

Submission

1. Images should be emailed directly to Michael Cuba at cuba@tfguild.org, ideally by May 13.
2. If you are submitting images via a filesharing method, please select the "share by link" option as files requiring permissions are often problematic.

Presentation

1. You will narrate your images.
2. Images will be presented in the order that they are received.
3. Time limits for presentations will be enforced this year. The time allotted for each presentation will be determined by the total time allotted for the slide show divided by the number of submissions.
4. Watch for your name in the group list on the screen and be sure to be in the front of the room before it is your turn to present.
